## Experience

### Amazon Web Services • Software Engineer

Sep 2021 - Present • Irvine, CA

- ▷ Working on the rapidly-evolving Amplify project.
- ▷ [aws.amazon.com/amplify](https://aws.amazon.com/amplify)

### Hero's Journey Interactive • Software Engineer

Feb - Sep 2021 • Santa Monica, CA

- ▷ Implemented core functionalities by creating new components and services in Angular, endpoints and controllers in Express, and procedures and tables in Postgres.
- ▷ Enlisted sessions, graceful error-handling, and responsive design for a coherent, intuitive UX.
- ▷ Deployed to the cloud via various AWS services and set up CI/CD.
- ▷ Secured HIPAA-compliance through end-to-end & at-rest encryption.
- ▷ Led bug bashes with team and beta users.

## Projects

### Voronoi Analyzer

[voronoianalyzer.com](https://voronoianalyzer.com)

- ▷ Built at the request of an ophthalmological researcher, this web app generates the Voronoi diagram of a given set of coordinates and performs statistical analysis on the areas of the resulting polygons.
- ▷ React, Sass, D3.js

### Ayurveda API

[doc.ayurvedaapi.com](https://doc.ayurvedaapi.com)

- ▷ REST API that provides the ayurvedic perspective on specific food items, so that end users can make informed dietary choices.
- ▷ Node.js (Express), MongoDB, Digital Ocean

## Skills

Javascript, Typescript, React, Angular, Webpack

CSS, Sass, HTML

Express, Node.js, Python

SQL (PostgreSQL), NoSQL (MongoDB), Redis

AWS, Digital Ocean

Jest, Enzyme, React Testing Library

## Education

### Wesleyan University

May 2016 • Middletown, CT

B.A. in Philosophy & German Studies  
(High Honors & Phi Beta Kappa)

### HarvardX: CS50x

Fall 2020 • Boston, MA

Introduction to Computer Science

## Interests

Meditation, minimalism, the outdoors
